Hard Skill

- React.js
- JavaScript
- Redux
- HTML/CSS/Tailwind/Bootstrap/MUI
- RESTful APIsl

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- Inderprastha Engineering College (A.K.T.U)
  B.tech computer science and engineering
  Consistent 79.8%
  Attended from Aug 2016 to Sept 2020

- D.A.V Centenary Public School (C.B.S.E)
  Intermediate in science
  Consistent 84.17%
  Year of passing 2016

- D.A.V Centenary Public School (C.B.S.E)
  High School
  Consistent 7 cgpa
  Year of passing 2014

About Me

I'm an experienced React developer with 3+ years of expertise in front-end technologies like React, JavaScript, Redux, and HTML5/CSS3. I excel in Agile and Scrum methodologies, consistently delivering clean, well-documented, and high-performance code. I thrive in independent and collaborative settings, with strong problem-solving and unit testing skills. Proficient in Git/GitHub and RESTful APIs, I'm ready to enhance your development team's success.

Professional Experience

Gemini Solutions pvt ltd | Software Engineer I2
October 2022 – Present

Key responsibilities:
- Proficiently delivered two client projects for Sharemeister and PLIL, in addition to one internal project.
- Developed and maintained scalable and responsive web applications using React, JavaScript, tailwind and Redux, ensuring optimal user experiences
- Consistently met project deadlines while ensuring the delivery of high-quality work, accompained by thorough unit testing, achieving an impressive 90% success rate.
- Leveraged Git for version control, enabling efficient code collaboration and management.

Projects
- Successfully developed a microsite from scratch, creating a user-friendly website for customers to purchase insurance plans.
- Specialized in crafting essential sections, including the calculator page, nominee page, and health lifestyle questionnaire page.
- Played a key role in enhancing the Sharemeister project by working on the Athletic Estate payment and premium video page.
- Played a crucial role in the internal project by working on the helpdesk portal, ensuring efficient and seamless support for the organization.
